ELSEVIER

Nuclear Engineering and Design 176 (1997) 299–301

Nuclear Engineering and Design

CONTENTS OF ISSUE 176 (1–2)

Topical Issue

TOPSEAL '96

Guest Editor: K. Hädener

Overview of European practices and facilities for waste management and disposal
F. Decamps and L. Dujacquier 1
Integrated waste management in a small programme
V. Ryhänen 9
Management of waste from uranium mining and milling in Australia
J. Harries, D. Levins, B. Ring and W. Zuk 15
An overview of military radioactive waste management in the UK
F. Dawson 23
Low and intermediate level waste management in EDF PWRs
J.-M. Ducoulombier, B. Lantes and M. Bordier 27
Knowledge development since the Seventies
J.-P. Olivier 35
The hazards presented by radioactive wastes and the safety levels to be provided by repositories
C. McCombie 43
How to cope with the hazards of nuclear fuel waste
C.J. Allan and K. Nuttall 51
Towards a Swedish repository for spent fuel
P.-E. Ahlström 67
A review of research carried out in European rock laboratories
W. Kickmaier and I. McKinley 75
Investigation and evaluation of the Gorleben site: a status report
A. Kaul and H. Röthemeyer 83
The Belgium underground research facility: Status on the demonstration issues for radioactive waste disposal in clay
B. Neerdael and J.P. Boyazis 89
Radioactive waste management in France: Status of underground research laboratories sited in France
N. Sugier and G. Ouzounian 97
The UK rock characterization programme
J. Holmes 103
Nuclear waste management in the US: The Nuclear Waste Technical Review Board's perspective
J.E. Cantlon 111
European and international standards regarding radioactive waste disposal
C. Beghin 121
Regulatory control of the German radioactive waste management system
A. Matting 141

PII S0029-5493(97)00261-6

What can a country with small nuclear program learn from other European countries?
I. Mele 145
The French approach to the safe management of very low level radioactive waste from nuclear installations
A.-C. Lacoste 151
Performance assessment of the geosphere barrier of a deep geological repository for spent fuel: The use of interaction matrices for identification, structuring and ranking of features, events and processes
K. Skagius, M. Wiborgh, A. Ström and L. Morén 155
Some aspects on the optimum repository plug design with respect to the escape of gas
L.O. Höglund, M. Wiborgh and G. Arens 163
Management and disposal of short-lived waste in a large programme (France)
Y. Kaluzny 167
Management of radioactive wastes from the operation of nuclear power plants
W. Hawickhorst 171
Characterization and acceptance criteria of conditioned radioactive wastes at El Cabril disposal facility
A. Morales 177
Waste management optimization: The COGEMA answer
P. Pradel 181
The efficient transport and storage of nuclear waste
R. Benbow 18

CONTENTS OF ISSUE 176 (3)

Materials engineering
Experiment and numerical simulation of double-layered RC plates under impact loadings
T. Shirai, A. Kambayashi, T. Ohno, H. Taniguchi, M. Ueda and N. Ishikawa 195
Benchmark calculations for mechanical stresses upon a transport cask
G. Dreier, R. Diersch, R. Hüggenberg, H. Spilker and S. Bantle 207
Analytical study on dynamic buckling of reactor containment vessel
K. Tai, T. Nakatogawa, T. Hisada and H. Noguchi 215
Waveguide ultrasonic liquid level transducer for nuclear power plant steam generator
V.I. Melnikov and V.N. Khokhlov 225

Thermal hydraulics, safety and risk analysis
Single and multiple discharge from a stratified two-phase region through small branches
I.G. Hassan, H.M. Soliman, G.E. Sims and J.E. Kowalski 233

Engineering mechanics
Reliability-based assessment of integrity of bonded prestressed concrete containment structures
M.D. Pandey 247
Prediction of pressure tube fretting-wear damage due to fuel vibration
M. Yetisir and N.J. Fisher 261

Instrumentation and control

A continuum model for cracked UO_2 fuel
L.O. Jernkvist 273

Technical note

Application of Leak-Before-Break Concept in VVER 440-230: Results and consequences for TACIS-program 91/1.2
G. Bartholomé, C. Faidy, C. Franco, A. Getman and R. Wellein 285
